modeling industry has become a lightning rod for debates about Western beauty ideals, the sexual objectification of women, and consumer desire. this ideal, not realizing that technology is key to creating the unattainable standard of beauty the model upholds—and as Wissinger argues, this has been the case for decades, before Photoshop even existed. Both a vividly illustrated historical survey and an incisive critique of fashion media, *This Year's Model*

demonstrates the lasting cultural influence of this unique form of embodied labor.
