to better manage the performance of those responsible for creating this value in the best interest of all stakeholders. It has evolved from The Principles of Scientific Management, Total

~~Corporate governance of information technology — Wikipedia~~

Techopedia explains Information Technology Governance (IT Governance) IT governance is a broad concept that is centered on the IT department or environment delivering business value to the enterprise. It is a set of rules, regulations and policies that define and ensure the effective, controlled and valuable operation of an IT department. It also provides methods to identify and evaluate the performance of IT and how it relates to business growth.
