BESTSELLER In 1864, Union general William Tecumseh Sherman marched his sixty thousand troops through Georgia to the sea, and then up into the Carolinas. The army fought off Confederate forces, demolished cities, and accumulated a borne-along population of freed blacks and white refugees until all that remained was the dangerous transient life of the dispossessed and the triumphant. In E. L. Doctorow's hands the great march becomes a floating world, a nomadic consciousness, and an unforgettable reading experience with awesome relevance to our own times.

Accelerated Reader Quiz available: #117017 Eleven-year-old Solomon Freeman and his parents, newly freed slaves, are building a homestead in north Florida's wilderness, living their dream of independence. Their battle to survive is filled with harsh difficulties in this wild and fickle new home, and they all work long, hard days. Solomon's father, Moses, dreams of his only son sharing his love for the land. Lela, his mother, tries to shield Solomon from his father's expectations, for she knows that the boy's heart is not in the fields. Solomon is a natural woodsman, good at fishing and hunting. Though these skills bring food to their meager table, Moses wants his son to concentrate on farming. Further distancing father and son is the arrival of a refined Virginian brandishing a fifteen-foot whip with deadly precision. Solomon is captivated by the man and the whip while Moses despises the whip and dreads his son's fascination with the newcomer. Lela struggles to make a home, keep peace between her husband and son, and continue Solomon's education as they fight to survive. When the chance comes to go on a cattle drive, Solomon jumps at it though his parents are reluctant to let him go. He confronts a new world as he rides a Florida marsh-tackie horse, wields his whip rounding up a large herd of wild cattle, and brings them to market at the coast where he sees sights he had never dreamed existed. Are the Freemans strong enough to build a successful homestead? Will they be welcomed in this hard place where blacks have only been slaves in years past? Will the family seal its bond through shared hardship or splinter irreparably? Does Solomon have the wisdom he needs to face challenges beyond his years and see the family through its perils? For the first time since the early years of the American republic, the period following emancipation held out the promise of a true colorblind democracy. The freed slaves hoped for forty acres and a mule by which they could work as small farmers, erect houses, establish families, and live free from the gaze of planter and overseer. In this first light of freedom, blacks needed help to learn how to function in a democracy and how to protect themselves from whites eager to find a new way to exploit their labor. In Freedom's Shore, Russell Duncan tells of the efforts of Tunis Campbell, a black carpetbagger and fellow

abolitionist and friend of Frederick Douglass, to lift his race to equal participation in American society. Duncan focuses on Campbell's determined work to push radical reforms, draft a new constitution for Georgia, and pass laws designed to ensure equality for all citizens of the state. Campbell made significant contributions at the state level, but his true importance was in his home district of Liberty and McIntosh counties on the Georgia coast. There he forged the black majority into a powerful political machine that controlled county elections for years. He successfully protected black rights, always promoting freedom-in-fact, not merely freedom-by-law. Yet, as many black politicians throughout the South were discovering, radical strength at the local level was insufficient to stop the growing strength of reactionary white politics at the state level. After years of struggle, Campbell was finally defeated by the white Democrats. Charged with political corruption, he was removed from his state and local political offices; at the age of sixty-four, over the protests of President Grant among others, Campbell was sentenced to Georgia's hire-out convict labor program. The black machine in McIntosh County, however, was not destroyed in Campbell's defeat, but instead remained an active force in county politics for forty years, returning a black legislator to the General Assembly in every election, except for the decade of the 1890s, until 1907. Presenting the beginnings of the battle for civil rights in the South, Freedom's Shore tells of the tenacity and achievements of one black political figure, of the hopes and dreams of a legally free people amid the political and social realities of Reconstruction Georgia.
