Written by an experienced teacher and senior examiner with an in-depth understanding of teaching and assessments for the IB psychology SL and HL courses. This new TestPrep book helps students to familiarise themselves with the psychology SL and HL exams. It provides information about the approach of the papers and the types of exam questions they will come across. Students can practice answering the questions by writing directly into the book, just like they do in the exam. And, as they work through, there are strategies, hints and support for answering the questions PLUS fully worked solutions at the end. From some excellent and unique practice questions for Paper 1 to invaluable advice from the experts on how to tackle Paper 2 (plus some unseen stimulus material for HL students for Paper 3), this book provides essential exam practice support for students revising for their psychology exams. Students will: understand what to expect from the psychology exam papers - with a breakdown of the format of Paper 1 (SL and HL), Paper 2 (SL and HL) and Paper 3 (HL only), the command terms and the assessment objectives see example answers to Paper 1, Paper 2 and Paper 3-style questions - with brand new, unseen sample answers to exam-style questions and answer analysis from the point of view of an examiner test themselves - with three complete sets of exam-style psychology practice papers (the first set includes loads of additional tips, examiner commentary and support to guide students to achieve high marks; the second set has fewer helpful prompts; the last set has no additional help and is designed so students can have a go at it themselves!) check answers - with fully-worked solutions in the back of the book.

Comprehensively covering all the core and option units for the 2009 syllabus at SL and HL, this text provides unrivalled preparation for IB assessment and was uniquely developed with the IB. Integrating examination of ethical issues, research methods and more, it will spur the highest levels of critical thought and support top achievement.

An ideal reference guide to introducing the IB Diploma in your school.

Master Introductory Psychology gives you all the information you need for any introductory psychology class or for self-study. This book breaks down all the key concepts in psychology and provides an engaging and memorable guide for each unit. Clear explanations and examples are combined with helpful memory strategies so content can stick in your head after a single reading. It's a step-by-step guide through all of the ideas you need to know. Each unit also includes a chapter summary, a list of key terms for review, and extensive references and recommendations for exploring subjects in more detail. Don't settle for dry definitions or endless multiple-choice questions that don't develop true understanding. Instead get the guide that builds a solid foundation and helps you master introductory psychology. This complete edition covers 16 units: History and Approaches Research Methods Biological Bases of Behavior Sensation & Perception Learning Memory Language & Cognition

States of Consciousness Intelligence Personality Motivation & Emotion Development Social Psychology Stress & Health Psychological Disorders Treatment

The official Statutes and Ordinances of the University of Cambridge.

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

This is the latest updated edition of the University of Cambridge's official statutes and Ordinances.

The 2009-10 volume of the formal governing regulations of the University of Cambridge, annually updated.
