Apply the major systems of psychotherapy in a way that will be meaningful in your own practice. Each contributor is either an originator or a leading proponent of one of the systems, and each presents the basic principles of the system in a clear and straightforward manner, discussing it in the context of the other systems. Theory chapters include a case example that guides you through the problem, evaluation, treatment, and follow-up process. Accompanying **CURRENT PSYCHOTHERAPIES** is **CASE STUDIES IN PSYCHOTHERAPY**, each case demonstrates the basic techniques and methods of the theory being illustrated. This edition retains classic case studies by Harold Mosak, Carl Rogers, Albert Ellis, Arnold Lazarus, and Peggy Papp.

science. Total Quality Management (TQM) in Government, Privatization, Metropolitan, Governance, and Reinventing Government. Considers ethics in Public Administration. For those in public administration or public affairs.

As a psychiatrist, Dr. Berne found that each person, in early childhood--under the powerful influence of his parents--writes his own script that will determine the general course of his life. That script dictates what kind of person he will marry, how many children he will have, even what kind of bed he will die in. Most of all, it determines whether he will be a winner or a loser, a spendthrift or a skinflint, a tower of strength or a doomed alcoholic. Some people, says Berne, have scripts that call for them to fail in their professions, or to be repeatedly disappointed in love, or to be chronic invalids. Here, he demonstrates

how each life script gets written, how it works, and how each of us can break free of it to help us attain real autonomy and true fulfillment.
