Working with Texts: A Core Book for Language Analysis provides a basic foundation for understanding aspects of English language crucial in the analysis of text. The major topics covered include writing, the sound system of spoken English, words, sentence grammar and discourse construction. The wide range of texts examined include literary extracts from prose fiction (Jeanette Winterson, Anne Tyler), poetry (D. H. Lawrence, Margaret Atwood), drama (John Godber) and graphic novels (Neil Gaiman), but also a huge diversity of texts from contemporary media: newspaper articles, advertisements (Gap, Kelloggs), political speeches and original authentic materials (children's writing, signs, everyday conversation). Student-friendly features include: * Activities showing how language works in texts and their contexts * Commentaries which follow each activity, highlighting main points of language use * Wide coverage of different genres: literary texts, notes, memos, signs, advertisements, leaflets, speeches, conversation * Suggestions for further reading and additional self-study exercises * Key words highlighted and a full index of terms Ideal for introductory courses to English Language and Literature and Linguistics. Also of interest to students of media and communication studies.

The core textbook in the popular Intertext series, Working with Texts introduces students to the main principles of language analysis, through real text examples. Featuring a wealth of contemporary examples

of English in use, the book is supported by clear and accessible explication and commentary.

Assuming no prior knowledge of linguistics, AN INTRODUCTION TO LANGUAGE, Tenth Edition, is appropriate for a variety of fields--including education, languages, psychology, cognitive science, anthropology, English, and teaching English as a Second Language (TESL)--at both the undergraduate and graduate levels. This completely updated edition retains the clear descriptions, humor, and seamless pedagogy that have made the book a perennial best-seller, while adding new information and exercises that render each topic fresh, engaging, and current. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Language and Region: provides an accessible guide to regional variation in English covers topical issues including loss of regional diversity and attitudes to regional accents and dialects examines the use of dialect in media, advertising and the tourist industry outlines the main linguistic characteristics of regional accents and dialects in terms of regional pronunciation, vocabulary and grammar. Affording hands-on practical experience of textual analysis, this book is essential reading for students of English language studies.

Daisetsu Teitar?? Suzuki was a key figure in the introduction of Buddhism to the non-Asian world. Many outside Japan encountered Buddhism for the first time through his writings and teaching, and for nearly a century his work and legacy have contributed to the ongoing religious and cultural interchange between Japan and the rest of the world, particularly the United States and Europe. This fourth volume of Selected Works of D. T. Suzuki brings together a range of Suzuki's writings in the area of Buddhist studies. Based on his text-critical work in the Chinese canon, these essays reflect his commitment to clarifying Mah?y?na Buddhist doctrines in Indian, Chinese, and Japanese historical contexts. Many of these innovative writings reflect Buddhological discourse in contemporary Japan and the West's pre-war ignorance of Mah?y?na thought. Included is a translation into English for the first time of his "Mah?y?na Was Not Preached by Buddha." In addition to editing the essays and contributing the translation, Mark L. Blum presents an introduction that examines how Suzuki understood Mah?y?na discourse via Chinese sources and analyzes his problematic use of Sanskrit.

Until now, no single volume has comprehensively examined the crucial question of how to select the most appropriate reading material for beginning or struggling readers. From leading authorities, this book meets an important need by reviewing the best available research on the role of specific text features a " including linguistic and conceptual content a " in supporting the development of proficient reading.

Also explored are ways that teacher scaffolding can help students who have difficulties with particular aspects or types of texts. The book considers approaches to adapting the design and selection of texts to reinforce reading skills and provide well-paced challenges for Ka "6 students at a variety of ability levels.

Aimed at A Level and beginning undergraduate students, this text analyses exactly what happens during conversation and why, the relationship between speaker and listener, and the structure, purpose and features of conversation.

The fifth edition of Psychiatry introduces medical students and junior doctors to the fundamentals of psychiatric knowledge in a patient centred, digestible, and memorable way. Written by clinicians who deliver front-line patient care and boast years of teaching experience, practical information is informed by theory and research. Written with an underlying philosophy that positive rapport with patients is central to providing successful psychiatric care this is a trustworthy and lauded guide to diagnosis and management. Organised into 34 chapters on core topics, information is laid out in a concise, user-friendly format with case studies, and scientific research formatted into boxes for easy access, ensuring students can quickly locate key information for revision and examinations. Previous First Prize winner for Psychiatry at the British Medical Association Book Awards, this textbook is ideal for those requiring a grounding in the discipline of patient-centred and evidence-based care.

The Intertext series has been specifically designed to meet the needs of contemporary English Language Studies. Working with Texts: A Core Introduction to Language Analysis (second edition 2001) is the foundation text, which is complemented by a range of 'satellite' titles. These provide students with hands-on practical experience of textual analysis through special topics, and can be used individually or in conjunction with Working with Texts. The Language of Work: examines how language is used in business and the workplace, looking at a range of situations and data: from meetings to informal negotiations, promotional letters to emails explores representations of work in advertising, career magazines and workplace talk looks at the way people in business interact through small talk, politeness, customer care and management-employee relationships is illustrated with lively examples taken from the real world and includes a full index of terms features a useful section on entering the world of work, exploring job adverts and texts that give advice on CV writing and developing 'transferable skills'.

This book guides teachers in grades 6-12 to strategically combine a variety of texts--including

literature, informational texts, and digital sources--to meet their content-area goals and the demands of the Common Core State Standards (CCSS). It presents clear-cut ways to analyze text complexity, design challenging text sets, and help students get the most out of what they read. Provided are practical instructional ideas for building background knowledge, promoting engagement, incorporating discussion and text-based writing, and teaching research skills. Appendices offer sample unit plans for English language arts, history/social studies, and science classrooms. More than 20 reproducible coaching templates and other tools can be downloaded and printed in a convenient 8 1/2" x 11" size.
